This has been brought about by the strong resilience depicted by global economy. The government successfully completed the IMF Stand-By Arrangement (SBA) program. The government is also focusing on controlling inflationary pressure and achieving sustained economic growth by tightening monetary policies. The State Bank of Pakistan has cut interest rates by 150 basis points to 20.50% during the first half of 2024 to bolster the economic growth and restore business confidence.

Acknowledgements:

We would wholeheartedly like to thank our shareholders, valued customers, employees and development staff for their consistent support that has helped Adamjee Insurance to emerge as one of the Pakistan's leading insurance companies. We are also grateful to the Securities & Exchange Commission of Pakistan and the State Bank of Pakistan for their continued guidance and assistance.

35 Fair value measurement of financial instruments

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Underlying the definition of fair value is the presumption that the company is a going concern and there is no intention or requirement to curtail materially the scale of its operations or to undertake a transaction on adverse terms.

A financial instrument is regarded as quoted in an active market if quoted prices are readily and regularly available from an exchange dealer, broker, industry group, pricing service, or regulatory agency, and those prices represent actual and regularly occurring market transactions on an arm's length basis.

IFRS 13 'Fair Value Measurement' requires the company to classify fair value measurements and fair value hierarchy that reflects the significance of the inputs used in making the measurements of fair value hierarchy has the following levels:

- Quoted prices (unadjusted) in active markets for identical assets or liabilities (Level 1)
- Inputs other than quoted prices included within level 1 that are observable for the asset either directly (that is, derived from prices) (Level 2)
- Inputs for the asset or liability that are not based on observable market data (that is, unadjusted) inputs (Level 3)

Transfer between levels of the fair value hierarchy are recognized at the end of the reporting period during which the changes have occurred.

The following table shows the carrying amounts and fair value of financial assets and financial liabilities, including their levels in the fair value hierarchy.

21 Contingencies and commitments

Parent Company

Contingencies and commitments

There has been no significant change in the status of contingencies and commitments as reported in the preceding published consolidated annual financial statements of the Parent Company for the year ended December 31, 2023 except for the following.

- The Parent Company has provided a guarantee to Meezan Bank Limited (MBL) against the loan provided by MBL to Hyundai Nishat Motor (Private) Limited, a related party, amounting to Rs. 1,149,329 thousands (2023: Rs. 1,193,900 thousands).
- The Parent Company has issued letter of guarantees amounting to AED 115,000,000 amounting to Rs. 8,714,746 thousands (2023: AED 115,000,000 amounting to Rs. 8,825,411 thousands) relating to UAE branch.

Subsidiary Company

Contingencies

Sales tax on life insurance premium

Sindh Revenue Board (SRB) vide notification no. SRB 3-4/5/2019 dated May 8, 2019 extended the exemption on life insurance till June 30, 2019. Subsequently, life insurance was made taxable from July 1, 2019 at the rate of 3% and group life insurance at the rate of 13%. With effect from November 1, 2018, the Punjab Revenue Authority (PRA) withdrew its exemption on life and health insurance and made the same subject to Punjab Sales Tax (PST). The Subsidiary Company collectively through the forum of Insurance Association of Pakistan ("IAP") filed a constitutive petition in the Lahore High Court (LHC) and in the High Court of Sindh at Karachi on September 28, 2019 and November 28, 2019 against PRA and SRB respectively on the following main contentions:

- Subtantiating the Subsidiary Company's view that insurance is not a service but in fact, in sum and substance, a contingent contract under which payment is made on the occurance of the event, specified in the term of contract or policy, and is thus a financial arrangement. Superior courts in foreign jurisdictions have held that insurance is not a service;
- A question of constitutionality arose on the levy of provincial sales tax on life insurance, which in their view, was a Federal subject, since the Federation has retained a legislative mandate over all laws relating to insurance under Entry 29 of the said List, therefore, only the Federation is entitled to levy and any tax in relation to insurance business; and
- A vast majority of premium received from a policyholder, during the life of the policy, is in fact channeled to the policyholders' investment account and as such this is critically important in exposing the legal fallacies embodied in the Rules. Thus, the legal advisors had expressed the view that if the entire Gross Written Premium (GWP) was subjected to the provincial sales tax, the this was akin to a direct tax on the policyholders, in the nature of income tax, wealth tax or capital value tax, all of which fall exclusively within the domain of Federal Legislature.

In Sindh, on June 22, 2020, the SRB through Notification No. SRB-3-4/13/2020, has made taxable, life insurance w.e.f. July 1. 2020 at the full rate, and issued a conditional exemption for the financial year 2019-20, from the levy of SST, subject to the person providing or rendering life insurance services commencing e-depositing with SRB, the amount of SST due on such services from the tax period from July 1, 2020 onward. On June 29, 2020 SRB through another notification No.SRB-3-4/18/2020 has amended the responsibility of withholding agent requiring clients to also withheld SST on services of life and health insurance. The Subsidiary Company with other life insurance companies, have filed another petition at the Honble SHC. The Honble SHC has directed that no coercive measure will be taken until the next date of hearing. Further, the Honble SHC through its interim order dated December 8, 2020 impleaded that the Federal Government be also added as one of the Respondents.

The life insurance industry has been granted interim relieves by the Honorable High Courts of Sindh and Lahore whereby the provincial tax authorities of Sindh and Punjab have been restrained and no sales tax on services has so far been paid on life and health insurance in either province.

In view of the opinion of the legal advisors, and pending the adjudication of petitions filed, the Subsidiary Company has neither billed its customers, nor recognised the contingent liability for SST, PST & KPST, which, calculated on the basis of risk premium and excluding the investment amount allocated to unit linked policies as per the opinion of legal advisors, aggregated to Rs.1,178.56 million (2023: Rs. 1,052.46 million). In Balochistan province, given that the Subsidiary Company has limited operations in that provice, the amount of contingent sales tax liability for BSTS, calculated on the similar basis as SST, PST & KPST, is immaterial. The Subsidiary Company, along with the IAP and other insurance companies, will continue its administrative efforts to convince the provincial revenue authorities about the merit of the case.

Income tax

Additional Commissioner Inland Revenue (ACIR), Range B, Zone VI, Large Taxpayers Office, Karachi issued an order dated December 29, 2023 u/s 122(5A) of the Income Tax Ordinance, 2001 to the Subsidiary Company for tax year 2018. In the aforementioned order, ACIR levied a minimum tax of Rs. 197.361 million under section 113 of the Ordinance @ 1.25% on the gross turnover of the Subsidiary Company which also includes the income generated on policyholders' fund.

The Subsidiary Company, through its tax consultant has filed an appeal on the grounds that owing to the special nature of insurance business, ACIR, while levying the minimum tax on the "gross turnover" has ignored the well-settled principles that used to calculate the income tax liability of life assurance business. Rules 1, 2 and 3 of the Fourth Schedule to the Ordinance overrides the provisions of the Ordinance by virtue of section 99 of the Ordinance. Rule 2 of the Fourth Schedule provides that profit and gains of a life insurance business shall be the current year's surplus appropriated to P&L Account as per advice of the appointed Actuary. Further, as per Rule 3 of the Fourth Schedule, amount paid to, reserved for or expanded on behalf of the policyholders shall be allowed as deduction. It is evident that tax can only be levied on shareholder's surplus appropriated to P&L account whereas policyholder's surplus is exempt from tax.

The gross turnover as calculated by ACIR does not represent the income of the Subsidiary Company and hence levying minimum tax on gross turnover is tantamount to tax on policyholders which is against the intent of the legislature.

The Subsidiary Company has reasonable grounds to believe that the likely outcome of the aforesaid appeal will be in its favor and hence no provision was made in financial statements.

29 Fair value measurement of financial instruments

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Underlying the definition of fair value is the presumption that the Group is a going concern and there is no intention or requirement to curtail materially the scale of its operations or to undertake a transaction on adverse terms.

A financial instrument is regarded as quoted in an active market if quoted prices are readily and regularly available from an exchange dealer, broker, industry group, pricing service, or regulatory agency, and those prices represent actual and regularly occurring market transactions on an arm's length basis.

IFRS 13 'Fair Value Measurement' requires the company to classify fair value measurements and fair value hierarchy that reflects the significance of the inputs used in making the measurements of fair value hierarchy has the following levels:

- Quoted prices (unadjusted) in active markets for identical assets or liabilities (Level 1)
- Inputs other than quoted prices included within level 1 that are observable for the asset either directly (that is, derived from prices) (Level 2)
- Inputs for the asset or liability that are not based on observable market data (that is, unadjusted) inputs (Level 3)

Transfer between levels of the fair value hierarchy are recognized at the end of the reporting period during which the changes have occurred.

To the members of Adamjee Insurance Company Limited - Window Takaful Operations

Report on review of Condensed Interim Financial Statements

Introduction

We have reviewed the accompanying condensed interim statement of financial position of Adamjee Insurance Company Limited – Window Takaful Operations (the operator) as at 30 June 2024 and the related condensed interim statement of profit and loss account, condensed interim statement of comprehensive income, condensed interim statement of changes in shareholders equity and participants' takaful fund, condensed interim cash flow statement, and notes to the financial statements for the six-month period then ended (here-in-after referred to as the "condensed interim financial statements"). Management is responsible for the preparation and presentation of these interim financial statements in accordance with accounting and reporting standards as applicable in Pakistan for interim financial reporting. Our responsibility is to express a conclusion on these financial statements based on our review.

Scope of Review

We conducted our review in accordance with international Standard on Review Engagements 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity". A review of condensed interim financial statements consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing' and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying condensed interim financial statements are not prepared, in all material respects, in accordance with the accounting and reporting standards as applicable in Pakistan for interim financial reporting.

Other Matter relating to comparative information

The figures for the three months period ended 30 June 2024 in the condensed interim financial statements have not been reviewed by us and we do not express a conclusion on them.

30 Fair values of financial instruments

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants' at the measurement date.

Underlying the definition of fair value is the presumption that the company is a going concern and there is no intention or requirement to curtail materially the scale of its operations or to undertake a transaction on adverse terms.

A financial instrument is regarded as quoted in an active market if quoted prices are readily and regularly available from an exchange dealer, broker, industry group, pricing service, or regulatory agency, and those prices represent actual and regularly occurring market transactions on an arm's length basis.

IFRS 13 'Fair Value Measurement' requires the company to classify fair value measurements and fair value hierarchy that reflects the significance of the inputs used in making the measurements of fair value hierarchy has the following levels:

- Quoted prices (unadjusted) in active markets for identical assets or liabilities (Level 1)
- Inputs other than quoted prices included within level 1 that are observable for the asset either directly (that is, derived from prices) (Level 2)
- Inputs for the asset or liability that are not based on observable market data (that is, unadjusted) inputs (Level 3)

Transfer between levels of the fair value hierarchy are recognised at the end of the reporting period during which the changes have occurred.
